San Fhancisco, Aug. 16.—The Bulletin publishes a startling story from the Pulliphines regarding Leut. Gilmore and the party from the Yorknown who were expured by the Filiphinos and who have been reported from official sources as being well-eared for and well treated.

I appears that when the Americans reached San Issilor, where the Yorknown members and some soldiers and eivilians had been imprisoned, they found the names of the prisoners seratched on the walls of the Jail. Some letters from the men were found secreted under stones and a spanniard who had been intrusted with several, presented them to Gen. Lawton. The letters toul of the hardships the men were compelled to suffer, and been suffered to the sufference, were in rays. Even now there is an impression that prevails among the few that bakers bread is unwholesome and unfit for family use. We will admit that there are many bakers who make their bread the same as their forefathers did years ago, and hence this impression is justifiable to those who never had an opportunity to get Bread made by modern processes and by bakers who thoroughly understand how to make understand how to make Bread that will be praised for its merits. The F. H. Traxel Co. has done its Traxel Co. has done its share to supply this section, enabling people to get Bread that will meet with every requirement.
